June 21, 2008

Dear Gentlemen,

I am writing to express how very pleased we are with the results of the recent roof replacement to our home and business. Not only was the job completed ahead of estimate but was accomplished on one of the hottest days of the season with temperatures nearing 100 degrees. We were actually anticipating an understandable delay due to the extreme conditions and were in turn entirely impressed with relentless pace and professionalism of the labor applied. Even the clean up that followed upon completion were both thorough and complete leaving little sign that such a significant project had taken place.

Paul and Ed were attentive to our questions and concerns prior to and throughout and we will gladly recommend your services to others seeking the services of reasonable quality roof replacement.

Thanks again,

Bill & Mary Ramsay
