Dear Michael:

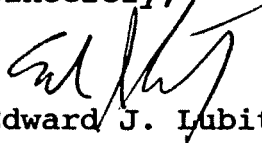

I wanted to take the time to write a letter to tell you how pleased I was with the work you and your company did on reroofing my house.

When we decided to put on a major addition, the principal problem was how to integrate the new roof with the old roof. You came up with several ideas that proved to be very helpful.

The quality of work you did was outstanding and your crew kept my property clean and organized during the process.

I would recommend you to anyone, and if I can be of any help in convincing others to hire you, please let me know.

Sincerely,

Edward J. Lubitz
