

JUNE 22 2010

Dear Paul,

The roof looks fabulous! Dave and I feel confident in knowing that all the problems with the chimney area that we had previously have been rectified, permanently.

Your project manager, Mike, is strict, capable and very professional. He went out of his way more than once, and puts his heart and soul into his job. The men did a quick, skilled and competent job.

It was very considerate of you to accommodate our shortened time line for the application of the job, again - much appreciated.

We look forward to doing business on the other roofs of the additions, and of course, will recommend your company highly to all.

I thank you, again
Sincerely, ~~Paul~~
