

October 15, 2004

To whom it may concern:

In September of 2004, I had my roof rebuilt by Associate Roofing. Paul Lynch, the S. M. and salesman was friendly, knew his craft and offered me a reasonable price for their services. I also got seven other estimates and Associate gave me the most for my money.

Then, the foreman on my job did a complete job in one day. This included small carpentry (including painting), roof ventilation, high quality materials, a 30 year guarantee, a solar powered roof fan and comprehensive clean-up.

After having the job done, I would return to Associate Roofing because of the professional people and complete job done from beginning to end.
