Dear Mr. Lynch,

In November of 2003 your company replaced the roof on the 160 year old part of our house. This involved replacing spires and fixing leaks and redoing sections of the roof boards. Mark Farina was the chief carpenter and roofer on our job. He did an outstanding job . He was very pleasant and easy to work. He took the time to understand our concerns over issues related to the roofing project. His work was meticulous, creative and careful. We recommend Mr Farina and Associate Roofing, Inc. very highly.

Sincerely,

Susan and Steven Feinstein
