Dear Mike-

Thank you very much for the wonderful Alaskan Yellow Cedar roof that you hand crafted and installed at our home. You made the process extremely easy and we enjoyed working with you and your excellent company. Your roofers were fast, efficient, clean and extremely nice. You personally, are a fantastic person and the most knowledgeable and honest business person I have ever had the pleasure of doing business with in my many years of home ownership. I strongly recommend that anyone considering a new roof should work with you. Your straight shooter approach and valuable counsel served us extremely well. I drive home every day and can't believe how beautiful our home is with your roof. Thank you, again, Mike.

Best,

Jim Vallee
